## **One and Done! Dispersing Agent for Simplified, Stabilized, & Stronger Colors**

**DISPEX® Ultra PX 4290** - Novel dispersing agent for **both organic & inorganic pigments** in water-based coatings, printing inks and adhesives. Your Content Goes Here

**Request SDS - via iCHAT**

**DISPEX Ultra PX 4290** is a broad spectrum, high molecular weight, solvent- & APEO-free dispersing agent that provides excellent pigment stabilization in water-based applications. When compared to the current market standard: **DISPEX Ultra PX 4290** demonstrates **better viscosity stability** and improved dispersion of **difficult pigments** in resin-free color concentrates.

## Performance Wins!

- Excellent flocculation resistance and pigment stabilization
- Outstanding color strength and transparency
- Achieve higher pigment loadings
- Improved gloss
- Exceptional flow characteristics
- Anti-flooding behavior

## Regulatory Check-Marks:

- Solvent- & APEO-free
- Food contact compliance
- Label-free
