## Acronal<sup>®</sup> 4250 is an APEO and ammonia free acrylic dispersion. It is designed for use in elastomeric white roof coatings.

Acronal<sup>®</sup> 4250 was value engineered for high performance zinc free formulations. When zinc is removed from the equation the formulation becomes more environmentally and economically friendly for our customers. Acronal® 4250 meets all ASTM D-6083 requirements.

### About the Dispersions & Pigments Division

The Dispersions & Pigments Division in North America offers a comprehensive portfolio of resins, binders, latex, pigments and effect pigments, colorants, and systems to meet specific application needs for the coatings, construction, printing and packaging and plastics markets. Our innovative products also help manufacturers in the adhesives, nonwovens and fiber bonding industries meet functional and performance demands. Our formulation additives, rheology modifiers, light stabilizers, photoinitiators, and antioxidants significantly enhances the existing BASF product portfolio for these markets.
