

GLYCOSPERSE[®] L-20 KFG NON GMO

Polysorbate 20
POE (20) Sorbitan Monolaurate
CAS No. 9005-64-5

Physical Properties

Acid Value	2 Max.
Saponification Value	40 – 50
Hydroxyl Value	96 – 108
Moisture, % KF	3 Max.
Color, Gardner 1963	10 Max.

Specifications and analytical methods are available upon request.

Typical Properties

Appearance @ 25°C	Clear Yellow Liquid
pH 5%	4 - 7
HLB	17

Suggested Applications

Glycosperse L-20 KFG NON GMO is a high HLB surfactant suggested for use in:

- **Cosmetic Applications:** as an o/w and fragrance emulsifier for shampoos, conditioners, crèmes and lotions, and bath products.
- **Household Products:** as an o/w emulsifier, viscosity modifier, and wetting agent in specialty formulations.
- **Textile Chemicals:** as a lubricant and emulsifier in synthetic fiber finish oil formulations.
- **Plastics:** effective anti-fog in PVC, anti-static agent in polyolefins
- **Food Applications:** as an emulsifier in food applications.

Packaging

Steel, closed head, lined drums 500 pounds net weight.

Shelf Life

The Shelf Life of the product is three years from the date of manufacture. The product should be stored in a cool, dry area.

FDA Status

This product is found on the U.S EPA TSCA inventory and is approved under the following FDA regulation: 21 CFR 178.3400

The seller makes no warranty, expressed or implied, concerning the accuracy of any results to be obtained from the use of this information and no warranty is expressed or implied concerning the use of these products other than indicated within. The buyer assumes all risks of use and/or handling. No statement is intended or should be construed as a recommendation to infringe any patent
