

Sicopal® Black K 0095

For Plastics industry

DESCRIPTION

- Inorganic metal-oxide black with neutral grey shade in reduction, recommended for all applications, where NIR reflection is required
- Opaque and neutral black, excellent shading partner especially for grey and off-whites;
- Non-warping in HDPE injection molding;
- Outstanding processing behavior in all polymers, excellent heat & chemical Resistance;
- Recommended for PVC, where iron oxide blacks show limitations.

PRODUCT DETAILS

Color Space	black
Product Group	Inorganic Pigment
Brand	Sicopal®
Colour Index™	P.Br. 29
Application	Packaging & Consumer Goods, Building & Construction, Automotive
Chemistry	Cr/Fe oxide
Performance	interior, exterior

● Highly recommended ● Recommended ○ Potentially recommended

TECHNICAL INFORMATION

Physical form	powder
Suitability/Substrate	PVC, PA6, PET, PC, PMMA, PS, ABS, Rubber, PUR, PO
Transparency	opaque
