

who can get environmentally
friendly tinting pastes for
waterborne emulsion paints?

you can.

working for you.

Solutions. Tailor-Made.™

Sunsperser® ECO are APEO, VOC and Resin free aqueous pigment dispersions. They are developed for coloration of waterborne Emulsion paint for the In-Plant production of ready mixed colors. Sunsperser® ECO dispersions consist of pigment, surfactant, polyglycol, additives and water. The introduction range consists of the nine key organic color indices, covering 90% of the In-Plant usage. We have updated the range with three new Iron Oxide dispersions.

Key attributes and benefits:

- Outstanding light and weather fastness
- High color strength
- Broad compatibility with waterborne systems and intermiscibility in all proportions
- Outstanding stability to sedimentation and drying out
- Easily pumpable and viscosity stable
- Good wet-rub resistance
- Narrow specifications

for environmentally friendly tinting pastes for waterborne emulsion paints choose Sunsperser® ECO pigment dispersions.

Sunsperser® ECO	Product Code	Dry Content (%)	Pigment Content (%)	Density (g/cm ³)	Pigment Concentration	Light fastness	Weathering	Exterior use
